PROFESSIONAL SUMMARY

DevOps, DevSecOps and MLOps Engineer with 7+ years of experience building reliable, automated platforms. Specializes in cloud infrastructure, Kubernetes, CI/CD, security, MLOps and intelligent operations.

CORE SKILLS

Cloud & platforms: AWS, Azure, EKS, AKS, Kubernetes, Helm, Istio
Infrastructure & delivery: Terraform, Ansible, Jenkins, ArgoCD, GitHub Actions, Git, Docker
MLOps & observability: SageMaker, MLflow, Kubeflow, Grafana, Prometheus, ELK, OpenTelemetry
Automation & systems: Python, Linux, CI/CD, DevSecOps, AIOps

PROFESSIONAL EXPERIENCE

Site Reliability Engineer — NOV 2023 - PRESENT
Hitachi Digital Services | Full-time
Reliability engineering, DevOps and related platform work.

Platform Engineer — JAN 2023 - APR 2024
Hitachi Digital Services | Full-time
Terraform, infrastructure and platform engineering.

Infra Developer (DevOps Engineer) — JUN 2021 - JAN 2023
Cognizant | Full-time
Engineering, Terraform and infrastructure development.

DevOps Engineer — SEP 2019 - MAY 2021
Magellanic-Cloud | Full-time
DevOps engineering supporting cloud and delivery operations.

Assistant Professor — JUN 2016 - APR 2019
Sanketika Vidya Parishad Engineering College | Full-time
Electrical and Electronics Engineering (EEE).

SELECTED PROJECTS

End-to-End MLOps Platform - SageMaker and Kubeflow model training, versioning, A/B testing and delivery.
Multi-cloud IaC - Terraform foundation across three regions with drift detection, compliance and cost reporting.
AIOps observability - Anomaly detection for 200+ services with predictive alerting.
GitOps Kubernetes platform - Delivery workflows across development, staging and production with rollback.

EDUCATION

Master's degree, Electrical and Electronics Engineering | Andhra University — APR 2017 - APR 2019
Bachelor of Engineering, Electrical and Electronics Engineering | Andhra University — JUN 2012 - APR 2015
